

PROGRAM SYNOPSIS

01 Day

June 6, 2024

Hall Carthage		Hall Dougga		Hall Reggia	
07H00 09H30	REGISTRATION				
09H30 12H00	Thematic session 1: SPINE C1, C2, C3, C4, C5, C6, C7, C8, C9			10H30 11H30	Ask an Expert (Tum) P Ruggieri F Triki H Ben Hamida
12H00 13H00	Industrial symposium Lunch box				
13H00 13H40	Free Conferences 1 FC1, FC2 SIOT	13H00 13H30	Oral Com 1 Spine 1		
13H40 14H40	ORTHORISQ Philippe Tracol France Welby	13H30 14H30	Thematic session 2: SOTCOT JUNIOR		
14H40 15H30	Free Conferences 2 FC3, FC4 SMACOT+ SACOT	14H30 15H30	Flash info CMF: medical writing	14H30 15H30	Ask an Expert (Ped) A Andreacchio K Kammoun
15H30	 BREAK				
16H00 19H00	Thematic session 3: FOOT & ANKLE GECPC C10, C11, C12, C13, C14 AFCP+ SIOT	16H00 19H00	Oral Com2 / Hip & Knee Oral Com 3 / Pelvis Oral Com 4 / Upper limb	16H00 17H00	
19H00 19H40	OFFICIAL OPENNING + CULTURAL SESSION				
20H00	 COCKTAIL DINNER				

02 Day

June 7, 2024

Hall Carthage		Hall Dougga		Hall Reggia	
08H00 08H30	Oral Com 5 / Shoulder	08H00 08H30	Oral Com 6 / Tumoral		
08H30 11H00	Thematic session 4: SHOULDER GETCEC C15, C16. SIOT	08H30 11H00	Thematic session 5: TUMOR GETOM/ATETAM	09H00	Ask an Expert (Lower Limb) Zagra + Zaraa
				10H00	Volpe + Abdelkefi
11H00		 BREAK			
11H30 13H00	Free Conferences 3 FC5, FC6, FC7, FC8 LB + SIOT	11H30 12H30	Free Conferences 4 FC9, FC10, FC11 SMACOT+ SACOT	11H30 12H30	SOTCOT/SIOT meeting
		12H30 13H00	OPALIA Symposium		
13H00 14H00	 LUNCH				
14H00 16H00	Thematic session 6: HIP & KNEE GHG C17, C18 SIOT	14H00 16H00	Oral Com 7 / Spine 2 Oral Com 8 / Foot & Ankle	14H00 16H00	Ask an Expert (Upper Limb) Galasso + Mahjoub
16H00		 BREAK			
16H30 18H30	Thematic session 7: PEDIATRIC GTOP (Part 1) C19, C20, C21, C22 SIOT	16H30 18H30	Thematic session 8: AO Trauma	16H30 17H30	Ask an Expert (Spine) Bouzidi, Hadhri
18H30 20H00	SOTCOT GENERAL ASSEMBLY (ELECTIVE)	18H30 20H00	Workshop Sofemed		
21H00	 GALA DINNER				

03 *Day*

June 8, 2024

Hall Carthage		Hall Dougga		Hall Reggio	
08H00 08H30	Oral Com 9 / Knee	08H00 09H00	Oral Com 10 / Paediatrics	08H00 09H00	ORP REGISTRATION
08H30 10H30	Thematic session 9: SPORT SURGERY TSASS	09H00 10H30	Thematic session 7: PEDIATRIC GTOP (Part 2)	09H00 11H00	Thematic session 11: AO Trauma ORP (1)
10H30 11H30	BOARD HANDOVER & SOTCOT AWARDS By MEDIS				
				11H30 12H30	 COFFEE BREAK
11H30 13H30	Thematic session 10: PELVIS & ACETABULUM GBC C23, C24 SIOT	11H30 13H30	Free Conferences 5 FC12, FC13, FC14, FC15, FC16 LB + SMACOT	11H30 13H30	Thematic session 11: AO Trauma ORP (2)
13H30 HIGHLIGHTS + CLOSURE 2024					
Announcements Next Congresses					

"In session" Conferences: 24

- C1:** From MIS to endoscopic spine surgery. History of UBE : Ahmed bel haj messaoud (TUN)
- C2:** Why UBE? results and literature review: Mejjid Lejri (TUN)
- C3:** UBE basics concepts: Wael Chebbi (TUN)
- C4:** UBE pearls for beginners: How to safely start your UBE journey: Nadir Yacine Benmebarek (ALG)
- C5:** My learning curve in UBE: Nadir Yacine Benmebarek (ALG)
- C6:** Lumbar disc herniation with UBE: Edouardo moreira pinto (POR)
- C7:** How I manage migrated lumbar disc Herniation: Edouardo moreira pinto (POR)
- C8:** Technical nuances of the Paraspinal approach with UBE: Para-UBE: Dimitrios marinopoulos (GRE)
- C9:** Complications and how to manage them: Dimitrios marinopoulos (GRE)
- C10:** Hallux Rigidus: Kais Nigrou (TUN)
- C11:** Orthopedic management of Charcot foot: Antonio Volpe (ITA)
- C12:** Surgical treatment of Ankle instabilities: Mehdi Nazim (FRA)
- C13:** Ankle arthritis: what to do in 2024? Mehdi Nazim (FRA)
- C14:** TAR with pre-operative navigation system: Antonio Volpe (ITA)
- C15:** Scapulothoracic Dyskinesis: A Concept Review and recent findings: O. Galasso (ITA)
- C16:** Posterior Shoulder Instability Classification, Assessment, and Management: O. Galasso (ITA)
- C17:** Therapeutic strategy in THA revision: management of acetabular defect from augment to custom: Alberto Momoli (ITA)
- C18:** Indications and techniques of megaprosthesis around the hip in non-oncologic setting: Luigi Zagra (ITA)
- C19:** Blount disease: Hammadi Ben Hamida (TUN)
- C20:** Late DDH; between abstention and surgical reduction: Zied Jlailia (TUN)
- C21:** Humerus fractures in children: Antonio Andreacchio (ITA)
- C22:** Risk factors in physeal fractures: Why? Which? How? Antonio Andreacchio (ITA)
- C23:** Revision for periprosthetic fractures of the proximal femur: Luigi Zagra (ITA)
- C24:** Oblique subtrochanteric shortening osteotomy in high hip dislocation: a simpler and reproducible technique (case-based lecture with video surgical technique): Luigi Zagra (ITA)

"Free" Conferences: 16

- FC1:** New surgical treatment of soft tissue sarcoma with orthoplastic approach: Pietro Ruggieri (ITA)
- FC2:** Modern treatment of bone metastases: Pietro Ruggieri (ITA)
- FC3:** Reconstruction of bone loss in the leg: Abdeljabbar Messoudi (MOR)
- FC4:** Feedback on management of pelvic fractures: Sidi Mohamed Imed Eddine GHAFfour (ALG)
- FC5:** The cost effectiveness of uni-compartmental knee arthroplasty and High tibial osteotomy for treatment of medial compartment osteoarthritis: Mohamed Rashed (LBY)
- FC6:** Contribution of Ilizarov in the management of bone loss: Mohsen Trabelsi (TUN)
- FC7:** Joint instability after hip arthroplasty revision: critical issues: Rocco Papalia (ITA)
- FC8:** The accuracy and reliability of preoperative planning for total hip arthroplasty: an explorative investigation on supervised machine learning on 800 cases: Rocco Papalia (ITA)
- FC9:** Acetabular fractures treated with osteotaxis: Mohamed Rahmi (MOR)
- FC10:** Surgical treatment of acute distal tibio-fibular syndesmotic lesions: Slim Daas (TUN)
- FC11:** Evolution of pinning in the treatment of distal radius fractures: Rachid NEMMAR (ALG)
- FC12:** AI in orthopedic surgery: Sofiene Kallel (TUN)
- FC13:** Review of Progressive Collapsing Foot Deformities (PCFD): Turkia Erouk (LBY)
- FC14:** Triage and management of musculoskeletal injuries during the Marrakech earthquake: Mehdi Boumediane (MOR)
- FC15:** WALANT anaesthesia (wide awake local anaesthesia no tourniquet) in traumatology and surgery: Mahdi Siala (TUN)
- FC16:** Malignant tumors of the distal femur: Resection and reconstruction: Kamal Rafiqi (MOR)

Thematic sessions: 11

TS1: SPINE 2H15

Coordinator: Dr Wael CHEBBI

Moderators: Sadok Ben Amor, Ramzi Bouzidi, Khaled Hadhri

Unilateral Biportal endoscopic spine surgery

Lumbar disc herniation : Unilateral Biportal endoscopic spine surgery and its use in Lumbar disc herniation treatment :

C1- From MIS to endoscopic spine surgery. History of UBE : Ahmed bel haj messaoud

C2- Why UBE? results and literature review: Mejjid Lejri

C3- UBE basics concepts: Wael Chebbi

C4- UBE pearls for beginners: How to safely start your UBE journey: Nadir Yacine Benmebarek

C5- My learning curve in UBE: Nadir Yacine Benmebarek

C6- Lumbar disc herniation with UBE: Edouardo moreira pinto

C7- How I manage migrated lumbar disc Herniation: Edouardo moreira pinto

C8- Technical nuances of the Paraspinal approach with UBE: Para-UBE: Dimitrios marinopoulos

C9- Complications and how to manage them: Dimitrios marinopoulos

TS2: SOTCOT JUNIOR 1H00

Moderators: Dr Teborbi, Dr Bousrih

My first ACL ligamentoplasty & meniscal tear

1. Introduction

2. Clinical Case 1 : ACL rupture

3. Case présentation +Surgical technique : graft harvesting +Arthroscopy + Postoperative imaging

4. Clinical Case 2 : Meniscus tear

5. Case présentation +Surgical technique : graft harvesting +Arthroscopy + Postoperative imaging

6. Complications

7. Indications (algorithm)

8. Take home messages

>>Flash info :

- Double plates osteosynthesis for humeral shaft fractures: Dr Mhiri Amir, Rdt Soussou Amine
- Surgical management of posterior shoulder instability: DR Jlidi Mohamed / Rdt Belkadhi Imène)
- Rheumatoid instability of the upper cervical spine :
Dr Ben Ammou Adnene / Rdt Abderrahim Mokhtar)

TS3: FOOT & ANKLE (GECPC) 3H00

Moderators: Sofiene Kallel, Kais Nigrou, Karim Ben Aicha

C10: Hallux Rigidus (Kais Nigrou) = 20 mn

>> **Round Table:** Multidisciplinary management of Diabetic foot: The Ben Arous experience (mohamed Abdelkefi) = 50 mn

- Introduction: Mohamed Abdelkefi
- Medical axis: Meya Abdallah
- Vascular axis: Rim Miri
- Infectious axis: Sahar Sallem
- Conservative surgery: Karim Ben Aicha
- Reconstructive surgery: Sarah Houimli
- Offloading & devices: Hanen Moalla
- Our Experience: Maamoun Mihoubi
- Take home messages: Mohamed Abdelkefi

C11: Orthopedic management of Charcot foot (Antonio Volpe) = 20 mn

>> **Short Symposium:** Bimalleolar fractures: karim Ben Aicha = 30 mn

- Survey presentation: Mohamed Ben jemaa = 10 mn
- Review of literature: Mehdi Bellil = 10 mn
- Recommendations: Karim Ben Aicha = 10 mn

C12: Surgical treatment of Ankle instabilities: Mehdi Nazim = 20 mn

C13: Ankle arthritis: what to do in 2024? Mehdi Nazim = 20 mn

C14: TAR with pre-operative navigation system: Antonio Volpe = 20 mn

TS4: SHOULDER & ELBOW (GETCEC) 2H30

1st Part: Moderators: Haykel Ben Amor, Sabri Mahjoub et Ahmed Amine Lahmar.

8h30 – 9h30

Session Worst case: Upperlimb (2cases) (20 min)

Focus: Highlights of Tunis Shoulder Course 2023: Arthroplasty session (10 min) Dr M.Bellil

Focus : Actual recommendations of management of acute clavicular fractures (10 min) Dr R.Ouanes

C15: Scapulothoracic Dyskinesis: A Concept Review and recent findings: Dr O. Galasso

2nd Part: Moderators: H. Annabi / R. Bouzidi / R. Ben Ghozlen

9h30 - 11h

>> **Round table :** Management of acute diaphyseal fractures of the humeral shaft (70 mn)

1. Introduction : Mounir Chebil
2. Orthopedic treatment : Sami Bahroun
3. Osteosynthesis by Intramedullary pinning : Rafik Elafram
4. Osteosynthesis by Plate : Samih Kacem
5. Osteosynthesis by Nail : Mohamed Amine Lahmar
6. External fixation : Mahmoud Ben Maitigue
7. Fracture and Radial Nerve palsy : Zoubaier Ellouz
8. Review of literature and Results : Ahmed Ben Abid
9. Conclusion : Mounir Chebil

C16: Posterior Shoulder Instability Classification, Assessment, and Management : Dr O. Galasso

TS5: BONE TUMORS (GETOM / ATETAM) 2H30

Moderators: *Fakhreddine Triki, Hammadi Ben Hamida*

8:30-9:30 – Session 1: “OOPS” in tumoral pathology: Presentation of six clinical cases:

- Case 1 - Mahmoud Ben Maitigue
- Case 2 - Lassaad Hssini
- Case 3 - Adnen Siala
- Case 4 - Hbib Nouri
- Case 5 - Fakhreddine Triki
- Case 6 - Hassen Makhlouf

9:30-11:00 – Session 2: Roundtable Discussion: Giant Cell Tumors of Bone (GCTB)

- 9h30 Introduction – Fakhreddine Triki
- 9h35 – Updated GCTB:
 - o Radiology - Ilyes Siala
 - o Pathology - Rchid Jlidi
 - o Management Prerequisites - Hbib Nouri
- 9h50 – State of play of GCTBs in Tunisia
Mehdi Meddeb, Majdi Ben Romdhane, Hassen Makhlouf
- 10h00 – Presentation of five clinical cases
 - Case 1 - Mahmoud Ben Maitigue
 - Case 2 - Moez Trigui
 - Case 3 - Majdi Ben Romdhane
 - Case 4 - Mehdi Meddeb
 - Case 5 - Mourad Jenzri

10h45 – Take Home Messages – Hamadi Ben Hmida

- 10h50 – Discussion

TS6: HIP & KNEE (GHG) 2H00

Coordinators: *Mohamed BEN SALAH, Mehdi BELLIL*

Reconstruction of acetabular defects in THA revision surgery

Moderators: *Mondher Kooli, Moncef Ben Abid, Maher Barsaoui*

1. Introduction M BELLIL 5'
2. Classification and planning Kh ZITOUNA 7'
3. Revision by 1st intention prosthesis N SAHNOUN N Y OTHMEN 7'
4. Reconstruction using a Big Size cup K HABBOUBI L HASSINI 7'
5. Reconstruction with a supporting framework:
 - a. Bursh's ring M BEN SALAH M MIHOUBI 10'
 - b. Kerboull cross plate M BOUABDALLAH A AMMAR 10'
6. Reconstruction using fragmented and structural allograft M ZARAA M HAMMAMI 7'
7. 3D printing and custom prosthesis: Tunisian experience H ABID H ZOUAOUI 7'
- C17: Therapeutic strategy in THA revision: management of acetabular defect from augment to custom A MOMOLI: 10'
8. Conclusion and recommendations M BELLIL 5'
- CNPTO : 20'
- C18: Indications and techniques of megaprosthesis around the hip in non-oncologic setting: L ZAGRA

TS7: AO Trauma 2H00

Moderator: Sofien Kallel

Case based learning upper limb (60 mn): Rafik Lafram

Case based learning lower limb (60 mn): Achraf Abdennadher

TS8: PEDIATRICS (GTOP) 3H30

Part 1 (Day 2) 2H00

Moderators : MN Nessib, M Jenzri, S Bouchoucha, R Boussetta

Face to face: orthopedic treatment versus early instrumentation in the treatment of adolescent idiopathic scoliosis. Khaled Kamoun vs Chakib Jalel

C19: Blount disease: Hammadi Ben Hamida

C20: Late DDH; between abstention and surgical reduction: Zied Jlaïlia

C21: Humerus fractures in children: Antonio Andreacchio

C22: Risk factors in physal fractures: Why? Which? How? Antonio Andreacchio

Part 2 (Day 3) 1H30

Coordinator: Mohamed Zaïri : Round table on slipped femoral head.

1. Introduction: M. Zaïri: 5mn

2. Clinical presentations: A. Trabelsi / H Ben Ghazlen: 05 mn

3. Imaging (X ray, US, CT, MRI): W. Douira: 07 mn

Bone scan : A. Mohsni: 3 mn

4. Classifications : R. Boussetta: 05 mn

5. Purpose of treatment and therapeutic modalities

• Percutaneous screwing and its varieties: W. Arfa: 05 mn

• The Dunn procedure and its varieties: A. Msakni: 05 mn

• Arthroscopic treatment: S. Rebhi / A. Abid: 05 mn

6. Preventive screwing: A. Mohsni: 05 mn

7. Complications : H. Chaabouni / M. Trigui: 05 mn

8. Conclusions and recommendations: M.A. Triki / M. Zaïri: 10mn

9. Discussion: 15 mn

TS9: ARTHROSCOPY & SPORT SURGERY (TSASS) 2H00

Shoulder – Case base symposium: Postero-superior rotator cuff tear

Moderators: A.A. Lahmar – H. Ben Amor (50 mn)

1. How to examin a shoulder with a rotator cuff tear ? (W Bouazizi) 5 mn

2. Wich imaging and how to intrepret it ? (Ch. Dabbeche) 6 mn

3. How to manage a reparable tear ?

(3 clinical cases : A Ben Abid, R B Ghazlen, S Kacem) 3x6 = 18 mn

4. What to do for no reparable tear ? (S Mahjoub) 6 mn

5. Conclusions and indications. (A A Lahmar) 5 mn

6. Discussion 10 mn

Knee – Focus: Extra articular reconstructions. A fashion effect ?

Moderators: A.Tebourbi – H. Abid (30 mn)

1. Belt and suspender : When ? Why ? Indications and arguments (H. Abid) 6 mn

2. Battle : Anterolateral Ligament (S. Bahroun) Vs AL Tenodesis (S. Rebhi) 12 mn

3. Iatrogene? Results and long term complications. (M. Ben Ayed) 6 mn

4. Discussion 6 mn

Ankle – Symposium: Treatment of OCD of talar dome

Moderators: M. Koubaa – S. Rebhi (40 mn)

1. Diagnosis and Classification of OCD of talar dome (Sabeur Rebhi) 7 mn
2. Approaches and accessibility (Mustapha Koubaa) 7 mn
3. How to do the microfracturing ? (Youssef Othman) 6 mn
4. Osteochondral autograft transfer : when and how ? (Haykel Ben Amor) 10 mn
5. Discussion 10 mn

TS10 : PELVIS & ACETABULUM (GBC) 2H00

Coordinators: MS. Akremi, MA Selmene

Moderators: Naoufel Ben Dali, Hedi Annabi, Mahmoud Ben Maitigue

Sacroiliac joint dysfunction

- 1- Introduction (MA. Selmene 5 min)
- 2- Status of knowledge among Tunisian orthopaedic surgeons on sacroiliac joint pain (MS.Akremi 7 min)
- 3- Biomechanics of the sacroiliac joint (K. Habboubi 7 min)
- 4- Clinical diagnosis (K. Zitouna 7 min)
- 5- Imaging of the sacroiliac joint (Ben Abdeladhim 7 min)
- 6- Medical treatment (K. Zouaoui 7 min)
- 7- Physiotherapy in Sacroiliac joint dysfunction (M.Khezami 7 min)
- 8- Surgical treatment (M. Ben Salah 10 min)
- 9- Conclusions and recommendations (M. Zarea 5 min)

C23: Revision for periprosthetic fractures of the proximal femur: L. Zagra

C24: Oblique subtrochanteric shortening osteotomy in high hip dislocation: a simpler and reproducible technique (case-based lecture with video surgical technique): L. Zagra

TS11: AO TRAUMA FOR OPERATING ROOM PERSONNEL (ORP): 4H30

Coordinator: Mohamed Samih Kacem

- 09h00-09h10 : Bienvenu et introduction : Mohamed Samih KACEM
- 09h10-09h30 : Anatomie et consolidation osseuse : Mohamed Seddik AKREMI
- 09h30-10h00 : Principes de base de la fixation des fractures Maamoun MIHOUBI
- 10h00-10h20 : Les plaques d'ostéosynthèse en chirurgie orthopédique Mehdi MEDDEB
- 10h20-10h40 : Les vis : formes et fonctions : Ameer TRIKI
- 10h40-11h00 : L'enclouage centromédullaire : Mohamed JLIDI

11h00-11h30 : pause-café

- 11h30-11h50 : Comment lire une radiographie standard ? Ahmed BEN ABID
- 11h50-12h10 : Les principes des ablations des matériels en orthopédie : Sami BAHROUN
- 12h10-12h30 : Prévention des infections au bloc opératoire : Mehdi MEDDEB
- 12h30-12h50 : Attention au syndrome des loges : Mohamed Samih KACEM
- 12h50-13h10 : Préparation péri opératoire pour l'ostéosynthèse d'une fracture : Sami BAHROUN
- 13h10-13h30 : Take home messages & Discussion
